

Hubert Janssen is in his 29th year of service with Telesat Canada occupying such diverse positions as network technologist, Operations Manager as well as Sales Manager for Western Canada and currently occupies Sr Business Planner Manager for Broadband services for Telesat Canada. He has worked in the Eastern, Central and Western Arctic, Northern Ontario, Arctic Quebec and Labrador providing, maintaining and selling satellite services. He specializes in remote community access for telephony, data and broadband in either a fixed or transportable environment and has worked closely with aboriginal peoples for over 20 years. He now has the pleasure of performing broadband marketing and business planning activities for these Canadian communities. He has been involved in all major broadband access initiatives in Canada and has worked closely with satellite, wireless and cable vendors and the Canadian federal government to implement and influence broadband policy and strategy.

Mr. Janssen is also a member of Canada's Communication Reserve and occupies the position of Lt Col, staff officer national headquarters of Information Management Field Force Ottawa.
